**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 31 October 2007.
- 2a) This action is **FINAL**.                            2b) This action is non-final.

## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114.***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/31/2007 has been entered.

### ***Election/Restrictions***

2. New claims 67 and 68 are joined with non-elected group I which was the subject of a prior restriction requirement. These claims are withdrawn from consideration (see Restriction requirement mailed 12/19/2005).

### ***Claim Rejections - 35 USC § 112***

3. Claims 38-66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment filed 10/31/2007 has changed the description of component (b) to be a "catalyst compound." However,

applicants have not identified where specific support for this change is found in the specification as filed. Specifically, the specification repeatedly describes component (b) as a methylalumoxane activatable compound, provides numerous examples, and clearly intends the preferred embodiment to be a transition metal compound activatable with alumoxane for the polymerization of olefins. However, the claim now allows (b) to be any catalyst, of any structure, catalytic for any purpose. Support for this scope cannot be found in the specification as filed.

***Claim Rejections - 35 USC § 102/103***

4. Claims 38-49, 52, and 56-66 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Wang et al. (US 6,555,631).

The reference discloses in Example 1, catalyst V a silica support with three catalyst species supported thereon, including MAO activator, including all claimed limitations. Although the method of preparing the reference catalyst differs somewhat from the product-by-process method set forth in the claims, all required catalyst features are present, and there is no basis to conclude that the reference product would be outside the claimed scope. If any differences exist, they would be minor and obvious. The burden of proof is shifted to applicants to show that the reference catalysts are outside the scope of the claims.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
